Examiner: Yuan

S.N. 10/616,696

Art Unit: 1745

May 16, 2006

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention.

I, Claims 1-4, drawn to a fuel cell stack comprising a plurality of fuel cell units, a fuel gas supply/discharge passage, an oxygen-containing gas supply/discharge passage, a plurality of fuel gas flow passages and a plurality of oxygen-containing gas flow passages.

II, Claim 5-8, drawn to a fuel cell stack comprising a plurality of fuel cell units, a fuel gas supply port, an oxygen-containing gas supply port, a plurality of fuel gas flow passage and a plurality of oxygen-containing gas flow passages.

III, Claims 9-19, drawn to a fuel cell stack comprising a plurality of fuel cell units that are stacked in a horizontal direction, a fuel gas supply/discharge passage, and an oxygen-containing gas supply/discharge passage.

IV, Claim 20-26, drawn to a fuel cell stack comprising a plurality of fuel cell units that are stacked in a horizontal direction, a fuel gas supply/discharge passage, a supply port for the fuel gas supply/discharge passage and a discharge port for the fuel supply/discharge passage.

V, Claim 27-32, drawn to a fuel cell stack comprising a plurality of fuel cell units that are stacked in a horizontal direction, an oxygen-containing gas supply/discharge passage, a supply port for the oxygen-containing gas supply/discharge passage and a discharge port for the oxygen-containing gas supply/discharge passage.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims is generic.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to

be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
